Project Management Professional Exam Preparation (PMP®)

Presented by the Graduate School of Technology Management, University of Pretoria

3 ECSA CPD Points

The **Project Management Professional Exam Preparation (PMP®)** short course assists you in improving your knowledge of project management in preparation for the PMP® examination. Unlike other certifications that focus on a particular geography or domain, the international PMP® certification can lead to project management work in virtually any industry, using various methodologies and/or in any possible location. The PMP® helps you understand the global language of project management and enables you to better connect with the global project management community. The course focuses on the following knowledge areas: initiating projects, planning projects, executing projects, monitoring and controlling projects, and closing projects. *This course can be attended through contact sessions or taken online.*

Benefits of PMP® certification

- As a PMP®, you can work in virtually any industry, with any methodology and in any location
- Opportunity to learn, expand yourself and your abilities
- You become a better project manager by taking your knowledge to the next level
- International exam to prove your knowledge and experience in applying the art and science of project management
- Achieving PMP® certification is a way to set yourself apart
- Financial certification incentives – reason you get a job, keep your job or are promoted

Project Management Professional Exam Preparation (PMP®)

Presented by the Graduate School of Technology Management, University of Pretoria

Learning outcomes

After successfully completing the course, you will be prepared to write the PMP® exam. You will have a discernible knowledge of all the PMBOK® knowledge areas and process groups and know how to implement its approaches in agile environments. Information on how to apply for and write the PMP® exam will also be provided. You will receive numerous practice exam questions per knowledge area and the course will culminate in the candidates writing a mock PMP® exam to test their newly acquired knowledge.

This course provides the 35 hours of project management education required to write the exam.

Who should enrol?

This course is ideal for experienced project managers who want to enhance their career prospects.
